RFID HF Portable Reader

Applications

Tracking
Inventory
Patrolling
Housekeeping
Maintenance monitoring
Classroom Attendance
Portable Attendance

Most versatile RFID HF reader in market. It is in use for number of applications. The reader comes with USB, GPRS and Wi-Fi interface. This versatile reader can be interfaced with any Android phone for any IoT application.

Simple and fast operation. Data collection is by simply touching the reader to RFID/ NFC card or tag. Keypad for special customized functions.

Our Free "Plug & Play" software detects the reader connected to PC and transfers data to PC in excel format.

Product Specifications		
NO.	Description	Parameters
	DDS part no.	HHR 150617XXX Version Product Identifier
	Environmental	
	Operating Temp	-20 ₀ C - +55 ₀ C
	Storage Temp	-20 ₀ C - +55 ₀ C
	Damp Heat	40 ₀ C, 95% RH
	Drop & Topple Survive	Drop & Topple on each of top & bottom corners and faces
	Free Fall Test	from 1000 mm height
	PHYSICAL	
	Display	16x2 Backlit wide angle LCD
	Indicator	Audio Visual
	Buffer Capacity	2687 records
	Number of Keys	15 Keys (Alpha numeric)
	Communication	USB 2.0 / GPRS optional
	Power Supply	Li-ion battery, 7.4V 1000mAH
	Charger	External power charger
	Time for full charge	5 hours for full charge after full discharged
	Read Range	40 ~ 50 mm
	Frequency	13.56 MHZ

GST - 27AABCD8023C1Z3
CIN - U31909 PN2003 PTC01 7985
